DETAILED ACTION

1. The restrictions of 10/30/02 in Paper No. 7 and of 2/11/03 in Paper No. 9 are withdrawn.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the pivot arms of claim(s) 1 & the gripping arms of claim(s) 6 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With regard to claim(s) 1, line(s) 5-6, it unclear if the applicant is claiming the conveyor and if said conveyor is conveying the article(s). The examiner suggests in line(s) 5, replacing "along" with --on-- and in line(s) 6, replacing "in" with --along--.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 7, 9, 11-14, 45, 47, 49-59, 61-62 are rejected under 35 U.S.C. 103(a) as being unpatentable over Santandrea et al. '623.

Santandrea et al. '623 disclose a two pallet operation for winding a stator keying from a conveyor queue. Santandrea et al. '623 may lack the precise order of the claimed processing steps but achieves the same effect.

It would have been obvious to modify Santandrea et al. '623 to provide/substitute the proper order of the claimed processing steps in order to accommodate practical considerations.

Conclusion

7. Claims 8, 10, 46, 48 & 60 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

9. Claims 2-6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
